Re: Additional Grades Served Request

To: Arizona State Board for Charter Schools

Edkey, Inc. requests approval of adding grades served to the Sequoia Village LEA for the Sequoia Village High School. As has been noted in conversations with staff, the four requested grades (9-12) are currently taught at the Village site and would continue to be, therefore the timeline for implementation is immediate.

The Sequoia Village campus serves the rural communities outside of Show Low with a full service K-12 experience. The campus has produced graduates matriculating to Ivy League schools, all of the state universities, and many other fulfilling college and career opportunities in its nearly 20 years of service to Arizona. Partnering with Northland Pioneer Community College the campus staff makes sure that all students have the opportunity to push the limits of their abilities. No changes are proposed to this on going enterprise, but rather the unification of all grades within the same LEA.

Sincerely,
Edkey, Inc.
